RONDO 3. Extraordinary performance for large, lofty spaces.

Offering highly engineered optics in a most attractive package, RONDO 3 by Trilux is a superior lighting solution for large public spaces such as banks, office lobbies, airports, exhibit halls, and retail environments.

The luminaire's contemporary appearance blends especially well with technical architecture. RONDO 3, a 13-inch-diameter fixture, employs a honeycomb-patterned aluminum reflector with matte outside finish and specular inside finish.

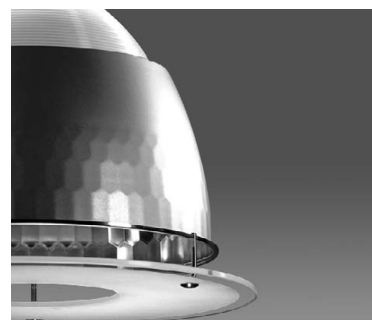

RONDO 3 may be alternatively specified with an opal acrylic upper reflector section allowing 14% uplight. An optional frosted glass ring is also available. RONDO 3 is available with CFL or metal halide lamphousing.

RONDO 3 with standard aluminum reflector.

RONDO 3 with optional opal acrylic upper reflector section that transmits 14% uplight.

Optional clip-on frosted glass ring is available for Rondo 3.

Canopy suspension.

RONDO 3 with a standard aluminum reflector.

Product details.

- Industrial look with a touch of sophistication
- Honeycomb-patterned aluminum reflector has a matte outside finish and specular inside finish
- May be specified with an opal acrylic upper reflector to allow a subtle glow of uplight
- Optional clip-on glass ring available to create an alternative visual aesthetic

CONSTRUCTION	Fixture housing is constructed of extruded aluminum. Reflector constructed of honeycomb aluminum. When specified, the top portion of the reflector is translucent opal non-yellowing acrylic. Suspension canopy is constructed of steel with a painted aluminum finish.
FINISH	Ballast housing is painted in textured gray finish. Outside of reflector has a matte, brushed aluminum finish, while the inside has a specular finish.
SHIELDING	Optional clip-on glass ring.
ELECTRICAL	120V or 277V. Electronic ballast is located in the housing above the reflector.
MOUNTING	Fixture is supplied with a 117-inch fully adjustable aircraft cable.

See product specification sheets at www.energielighting.com for complete details.
